

**MODA SPARKLING WATER SYSTEM**  
**PROVISIONS REQUIRED PRE-INSTALLATION**  
**FREECALL: 1800-006632**

**Important information re. MODA installation and your obligations**

**You must have the below provisions in place before installation (failure to do so may give rise to additional fees):**

1. Ventilated location
2. GPO
3. Cold water point with ½" m. connection
4. Tank of Co2
5. Benchtap (that is NOT stone; if so has be predrilled)

**\*\*VENTILATION\*\***

**Machine CAN NOT be positioned in a closed cupboard**

- **If so, pre-approved vents must be fitted in the correct location or full mesh door installed. Speak to a MODA rep for specifications & approval**
- **If ventilation is inadequate Moda will install vents at a cost of \$30/vent & 1 hour labour, depending on cabinetry material**
- **No matter the configuration 150mm clearance is required from condenser on machine**

MODA has assigned two hours of a technician's time to complete installation and requires these provisions to be in place prior to the scheduled installation time.

Any time over the two hours allotted to the Installation is chargeable to the Site Operator and it's agents. (MODA fees are \$110+gst/call out and \$110+gst/hour or part thereof).

Failure to cancel or postpone installation 72 hours prior to a technician's scheduled arrival may also give rise to additional fees.
